### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The limitation of claim 1, which requires a high fixed intake and exhaust valve overlap, equally varying the intake and exhaust valve timing to obtain superior full throttle performance over the speed range, and deactivating operation of up to half of the engine cylinders during idle and low speed/load operation, is not suggested by the prior art.

The limitations of claim 3, which require a high performance fixed overlap, a cam phaser for each camshaft and controlled to equally vary the intake and exhaust valve timing, and valve deactivation mechanism for up to half the cylinders, is not suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
